

ISUZU
D-MAX

GO YOUR OWN WAY

YOUR LIFE YOUR WAY

DRIVEN BY THE LEGENDARY ISUZU TURBO DIESEL ENGINE, THE D-MAX HAS ALL THE POWER AND PERFORMANCE YOUR LIFESTYLE DEMANDS.

Over a century of specialist engineering has gone into creating the reliable and rugged D-MAX. Combining power, efficiency and modern comforts, the D-MAX is a ute designed to handle whatever you throw at it, giving you everything you need to escape the everyday and own your next adventure.

The ever dependable Isuzu D-MAX. GO YOUR OWN WAY.

4x4 LS-T Crew Cab Ute in Magnetic Red mica

YOUR PIECE OF HISTORY

With a heritage stretching back to 1916, Isuzu Motors has the longest history of any Japanese vehicle manufacturer. Isuzu Motors is also one of the world's largest producers of commercial diesel engines, producing over 26 million engines to date and spanning light, medium and heavy weight classes. Isuzu diesel engines are relied upon by a number of top-level automobile manufacturers around the world for their superior performance and exceptional fuel economy.

The "pursuit of people's trust" is the underlying trait of product development at Isuzu. As a matter of principle, the vehicles we manufacture must be worthy of the trust of our drivers. This philosophy guides us in perfecting our technology and creating vehicles with a conscience.

The origin of our D-MAX ute can be traced back to the Isuzu WASP in 1963, which was produced under the initiative to build a car that looked like a passenger vehicle, but functioned as a truck. Over the next 50 years, backed by record sales, Isuzu utes were exported to various markets around the world. Today, over two million people depend on Isuzu utes for their daily drives.

1963

The Isuzu Wasp is released as the 1st ute in Isuzu's history

1972

The Isuzu Faster is released and exported all around the world

1980

Isuzu 'pick-up' or 'KB' is offered in three cab styles: single, space and crew cab

1988

A monumental feat saw the Isuzu ute become the widest body in its class

2002

The internationally branded Isuzu D-MAX ute is launched worldwide

2010

D-MAX impresses with its tough, stylish and fuel efficient model line-up

4x4 LS-U Crew Cab Ute in Obsidian Grey mica

YOUR POWER TO PERFORM

Isuzu 4JJ1-TC Hi-Power turbo diesel engine offers a maximum torque output of 430Nm and 130kW of power

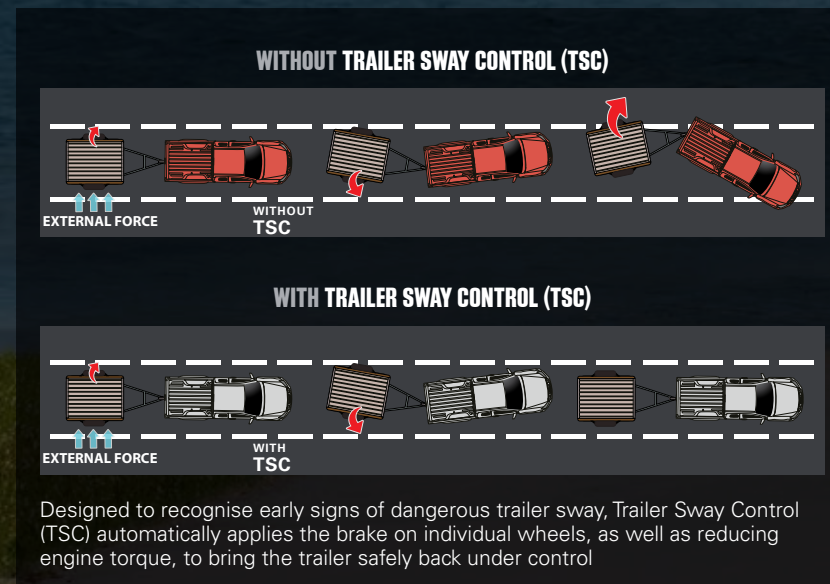

The Isuzu D-MAX range is powered by a highly refined 3-litre turbo diesel common rail engine which offers superior fuel efficiency thanks to low friction, fuel injection optimisation and a large front-mounted intercooler.

This advanced Euro5-compliant unit generates 130kW of power and a peak torque output of 430Nm at a low 2000rpm. Consistent levels of torque are delivered through the majority of the rev-range, aiding with drivability and making towing up to 3.5 tonnes* a breeze. Trailer Sway Control (TSC) is built-in across the D-MAX High-Ride range to help you stay in control of what you're towing even if conditions become gusty. TSC will automatically apply the brake on individual wheels to counteract potentially dangerous swaying of the trailer – keeping you in control!

Mated to a six-speed 'Rev-Tronic' automatic transmission with sequential sports mode, the automatic transmission features an adaptive-learning function which constantly monitors brake and throttle applications. This allows the transmission to automatically select the most appropriate shift points and lock-up points depending on the driver's behaviour, the vehicle's load and speed. A smooth shift six-speed manual transmission is also available. It features a superior gear-lever pivot point, reducing gear-shift travel for a sportier feel.

Whether it's hauling big loads, powering through the work week, cruising through the weekend or going where the others won't, the Isuzu D-MAX will get you there and beyond.

*Braked towing on 4x4 and 4x2 high-ride models when fitted with an optional genuine Isuzu D-MAX tow bar kit.

4x4 LS-T Crew Cab Ute in Magnetic Red mica

YOUR FUEL EFFICIENCY

Isuzu is fully committed to lowering emissions over the course of a vehicle's life cycle - from materials procurement to disposal and recycling. This philosophy is no better illustrated than in our Isuzu D-MAX.

For precise control over fuel injection timing and the quantity of fuel delivered, our common rail technology is unsurpassed. The Isuzu high pressure common rail technology ensures you burn minimal fuel while returning maximum performance, while the Variable Geometry System (VGS) turbocharger constantly adjusts to achieve maximum air compression from low RPM. This ensures minimal fuel usage and maximum torque throughout the rev-range.

The Isuzu D-MAX has further improved on its renowned fuel efficiency and performance after extensive wind tunnel testing at the Japan Railway Technical Research Institute where the Bullet Train is developed. This ensures the Isuzu D-MAX is the most aerodynamic yet with record low Cd (drag coefficient) figures. This development has also realised an improvement in cabin noise levels adding to passenger comfort.

FUEL CONSUMPTION FIGURES

Isuzu D-MAX Models		Combined Fuel Consumption ^A
Single Cab Models	A	7.5-7.7L/100km
	M	7.2-7.8L/100km
Space Cab Models	A	7.5-7.7L/100km
	M	7.8L/100km
Crew Cab Models	A	7.7-7.9L/100km
	M	7.8-8.1L/100km

A Automatic Transmission M Manual Transmission

^AFuel consumption and emissions figures based on ADR 81/02 (combined cycle test) and are to be used for vehicle comparison purposes only. Actual fuel consumption and emissions will vary depending on many factors including, but not limited to, traffic conditions, individual driving style and vehicle condition.

- A Multi-Information Display of instant and average fuel consumption
- B Improved redesign of fuel injector pintle caps for optimum fuel efficiency
- C Fuel efficient sequential shift 6-speed automatic transmission
- D State-of-the-art aerodynamic exterior design, tested for minimal drag

YOUR OWN ADVENTURE

With a "Terrain Command" 4WD select system, drivers can adjust between 2WD-high and 4WD-high modes while travelling at speeds of up to 100km/h, and 4WD-low for rugged terrain. Isuzu D-MAX drivers can comfortably tackle any environment with an electronic brake control that automatically engages the Hill Start Assist (HSA) to prevent vehicle roll-back when starting on steep gradients (above 5.7 degrees). Hill Descent Control (HDC) will give you the confidence to tackle any downhill terrain, giving you maximum traction on rough terrain. Steel underbody protection along with generous ground clearance adds further peace of mind when heading off-road.

The Isuzu D-MAX will redefine your spirit for adventure and allow you to go places you've never before dared. Independent double wish-bones with coil springs and gas shock absorbers guarantee superior front end grip and steering control. The rear suspension consists of long span leaf springs (under-slung on low-ride models and over-slung on high-ride models) resulting in excellent traction and stability under every road condition - with or without loading.

A HSA prevents roll back on gradients above 5.7 degrees, while HDC provides maximum traction going downhill

B "Terrain Command" 4WD system allows for simple shift from 2WD-high, 4WD-high and 4WD-low

C Large front brakes with ventilated disc

D Steel underbody guards on sump and transfer case on 4x4 models

4x4 LS-U Crew Cab Ute in Magnetic Red mica

YOUR BOLD STYLE

With a commanding stance, the Isuzu D-MAX combines a metropolitan style with tough off-road ruggedness.

Muscular flared wheel arches and flowing lines create a balanced profile that not only looks the part, but is appropriately designed with the practical features required to fulfil your driving purpose – such as LED Daytime Running Lights (DRLs), ultra-bright LED taillights, and piercing projector headlights (standard on LS grade models). Pump your style up a notch with the top of the range LS-T with two-tone machined 18 inch alloy wheels as well as stylish roof rails built to take a load of up to 60kg.

Designed to stand out from the crowd, the exterior styling of the Isuzu D-MAX reflects the Go Your Own Way attitude.

- A** The aerodynamic grille offers a stylish exterior for the powerful D-MAX engine
- B** Projector headlights and DRLs are standard on LS grade models
- C** LED rear taillights are standard on LS grade models
- D** Two-tone machined 18" alloy wheels are standard on LS-T models
- E** Roof rails, able to carry a load of up to 60kg, standard on LS-T models

4x4 LS-T Crew Cab Ute in Titanium Silver metallic and 4x4 LS-M Crew Cab Ute in Titanium Silver metallic

YOUR ULTIMATE CONVENIENCE

At your fingertips you will find all the technology and modern conveniences you have come to expect in a new ute.

Every D-MAX offers a generous complement of standard equipment, including an audio system with iPod® and Bluetooth® connectivity for phone and audio streaming. All SX and LS models come equipped with a touchscreen audio as well as a reversing camera as standard. LS-U and top of the range LS-T models are equipped with touchscreen SatNav as standard.

All SX and LS models conveniently feature steering wheel cruise control and audio controls to help keep you focused on the road ahead. Remote keyless entry, power windows and mirrors are standard on SX and LS models. For the ultimate convenience, the top of the range LS-T comes standard with a Passive Entry and Start System so you can unlock and start your car without ever having to touch your key.

Thoughtfully-designed wider door arches and A-pillar assist grips allow for easy access to the cabin. Multiple cup holders and storage points throughout the cabin make it easy to store your gear. Including dual glove boxes and a centre console bin to make storing small or large items simple.

- A** SatNav is standard on all LS-U and LS-T models
- B** Passive Entry and Start System provides keyless locking and unlocking as well as an engine start/stop button (LS-T model only)
- C** Reversing camera is standard on all SX ute and LS models (excluding SX cab chassis models)
- D** Dual glove boxes and multiple storage compartments give plenty of room for your gear (LS-T model shown)

The Bluetooth® word mark is owned by Bluetooth SIG, Inc. Not all devices will be compatible and functionality will vary depending on the device.
iPod® is a trademark of Apple, Inc.

*Seats have leather touches or accents, but are not wholly leather.

4x4 LS-T Crew Cab interior featuring climate control, black leather accented seats* and Passive Entry and Start System

YOUR MAXIMUM COMFORT

Behind the powerful exterior of every D-MAX lies a rich and spacious interior designed to keep you comfortable wherever your D-MAX takes you.

A large cabin interior across the range provides greater head and leg room for all passengers. A comfortably padded and contoured seat design with 'wraparound' bolsters provides increased shoulder, back and base support delivering more comfort for occupants. The top of the range LS-T adds an extra layer of luxury to the interior cabin with leather accented seats* as standard, along with a six-way adjustable electric driver's seat that will help you find the perfect driving position.

Keep yourself and your passengers cool and comfortable with air conditioning and a fine-particle pollen filter as standard across the range. LS-U and LS-T models feature climate control air conditioning as standard, keeping you and your passengers comfortable in every season.

- A** Experience the ultimate comfort with leather accented seats* as standard on LS-T models
- B** Six-way electric driver's seat lets you find the perfect driving position at the touch of a button (LS-T models only)
- C** Climate control air conditioning is standard on LS-U and LS-T models
- D** Take the wheel in comfort in any D-MAX with a leather wrapped steering wheels standard on all models

*Seats have leather touches or accents, but are not wholly leather.

*Seats have leather touches or accents, but are not wholly leather.

4x4 LS-T Crew Cab interior with black leather accented seats*

YOUR SUPERIOR SAFETY

The entire D-MAX range has been designed to keep you and your passengers safe with a host of active and passive safety features as standard, including 6 airbags (dual front, curtain and side), Electronic Stability Control (ESC), Traction Control System (TCS) and four channel four sensor ABS (Anti-skid Brake System) with EBD (Electronic Brakeforce Distribution), Emergency Brake Assist (EBA) and Trailer Sway Control (TSC). A high-strength tailor blank welded passenger safety cell with side impact anti-intrusion bars also increases occupant safety.

Further enhancing driver safety is a collapsible steering column and brake pedal, while pedestrian safety is increased with an impact absorbing bonnet design, recessed fog lamps and shatter resistant polycarbonate headlamp covers. All of this adds up to give 4x4 and 4x2 High-Ride Crew Cab Isuzu D-MAX models a 5 star ANCAP safety rating* to keep you safe whether you're hard at work or on an adventure.

A Included on all D-MAX models, Electronic Stability Control (ESC) detects if the vehicle is under or oversteering

B The cabin is constructed from high tensile tailor blank welded steel for unyielding strength and rigidity of the passenger safety cell

C For the essential safety and protection of all occupants - 6 airbags: dual front, curtain and side

ANCAP
SAFETY

TESTED
2013

*5 star ANCAP safety rating applies to D-MAX 4x4 Crew Cab variants built from November 2013 and 4x2 High-Ride Crew Cab variants built from November 2014.

YOUR TRUCK SPIRIT

The Isuzu D-MAX comes from a lineage of the world's toughest, most reliable workhorses. A truck-tough chassis means better balance and performance whether loaded or not, delivering superior stability and roadholding in all conditions. Isuzu has created over 26 million diesel engines around the world, engines that have been honed in trucks and light-commercial vehicles for generations, and under the hood of the D-MAX is a robust engine that won't let you down.

Over 4,000,000km of strenuous testing in searing heat, heaving rain, hail and even snow was conducted in the development of the Isuzu D-MAX to ensure it never lets you down.

As a testament to our immense confidence we have in building durable, reliable and efficient utes, every Isuzu D-MAX is backed by the Isuzu UTE Australia Service Plus Program which adds further peace of mind when it comes to protecting your investment. Designed with superior know-how you don't just get a ute, you get the tools to go your own way with every Isuzu D-MAX.

- A** Advanced induction hardened liner technology eliminates the need for cylinder liners
- B** Steel timing chain (not poly belt)
- C** 6-speed automatic and manual transmissions with equal maximum torque output (manual shown)
- D** Sophisticated engine head; cam-to-valve roller bearings and variable swirl action gas flow
- E** Variable Geometry System (VGS) turbocharger provides lower emissions and higher engine output
- F** Large intercooler means greater thermo-cooling capacity
- G** High pressure common rail fuel injection system minimises the amount of fuel needed in the combustion process, providing superior fuel economy
- H** Independent double wishbone and gas shock absorber front suspension. Over slung rear springs for improved off-road operation on 4x2 high-ride and all 4x4 models (Heavy Duty suspension shown)

YOUR WORKHORSE

The Isuzu D-MAX is built to work hard for all professionals. Whether you're working the land, a building site or keeping the family on the go, the superior ladder chassis design provides a robust platform for all D-MAX variants. Dubbed the "i-GRIP" (Isuzu Gravity Response Intelligent Platform), this proven chassis has increased strength and rigidity by 42% over its predecessor, thanks to a larger side rail cross-section and the addition of 'cross member to chassis rail' braces. With improved stability while both loaded and towing, it ensures long term durability and sure-footed performance.

Our ingenious 'Space Cab' is a worker's best mate – it features convenient rear 'wing' doors to make cabin access even easier and pull-down 'jump' seats for additional passengers. For even more versatility, match your D-MAX with a genuine Isuzu D-MAX tray body. Choose from our range of alloy or steel trays and accessories so you're equipped to get the job done. To top it off, all SX and LS-M models come standard with tough 'All-terrain' tyres, which make light work of even the roughest of terrain, but also offer a smooth ride on-road with low road noise.

- A** Strong, durable yet light chassis design
- B** Spacious rear cabin and rear 'wing' door access in Space Cab
- C** Fold down rear seats in Space Cab with storage compartments
- D** SX interior with 7" touchscreen and Bluetooth® audio streaming

The Bluetooth® word mark is owned by Bluetooth SIG, Inc. Not all devices will be compatible and functionality will vary depending on the device.

YOUR WORK FLEET

From the outset of design, the entire D-MAX range has been engineered for a purpose, for reliability, durability and economy. With 21 D-MAX variants, there will always be a D-MAX to suit your specific requirements. Whether your fleet needs to go the distance on highways, the outback or construction sites, an Isuzu D-MAX will get them where they need to go and back again.

The D-MAX range has been engineered to be extremely efficient, with low fuel consumption from 7.2L/100km^A. Lower fuel consumption means fewer trips to the fuel pump and valuable cost savings across your fleet.

Isuzu UTE's Dealer network spans every state and territory in Australia, including regional and remote locations, so support is always close at hand. Our dedicated team of fleet managers are always available to ensure that your fleet requirements are met.

Whether you are a one man operation or an international corporation, a D-MAX fleet will be equipped to suit all aspects of your business.

^AFuel consumption and emissions figures based on ADR 81/02 (combined cycle test) and are to be used for vehicle comparison purposes only. Actual fuel consumption and emissions will vary depending on many factors including, but not limited to, traffic conditions, individual driving style and vehicle condition.

	4x4 high-range	1.000	1.000
4x4 system	"Terrain Command" control with 'shift on the fly' 2-high↔4-high selection at up to 100km/h		
Drivetrain system	TCS (Traction Control System) on all model variants		

Steering

Engine-speed-sensitive variable capacity power-assisted rack and pinion system; 3.80 turns (4x2 Low-Ride model) and 3.84 turns (4x2 High-Ride and 4x4 models) lock-to-lock via tilt-adjustable steering wheel

Chassis

Separate, full-length heavy-duty truck chassis with 7 cross members on the low-ride model and 6 cross members on high-ride models

Front suspension

4x2 SX Low-Ride model: Independent, coil springs, gas shock absorbers, upper and lower wishbones, stabiliser bar

4x2 High-Ride and 4x4 models: Independent, high-ride, coil springs, gas shock absorbers, upper and lower wishbones, stabiliser bar

Rear suspension

4x2 SX Space Cab Ute High-Ride and LS-M models: Heavy Duty alloy-steel overslung long-span semi-elliptic leaf springs; gas shock absorbers

4x2 High-Ride and 4x4 models: Alloy-steel overslung long-span semi-elliptic leaf springs; gas shock absorbers

All Cab Chassis models: Heavy Duty alloy-steel long-span semi-elliptic leaf springs; gas shock absorbers (Low-Ride: underslung High-Ride: overslung)

Axles

Front

Independent 4x4: fully floating with outer CV, inner double offset joints and equal length driveshafts
Gross Axle Weight: Low-Ride 1250kg; High-Ride 1350kg

Rear

Rigid semi-floating banjo with hypoid final drive and dual tapered needle roller bearings
Gross Axle Weight: 1870kg

Brakes

Anti-lock Brake System (ABS) with Electronic Brakeforce Distribution (EBD), Electronic Stability Control (ESC), Emergency Brake Assist (EBA), Trailer Sway Control (TSC - on 4x2 High-Ride and 4x4 models only), Hill Start Assist (HSA) and Hill Descent Control (HDC)

Low-Ride model: 280mm dia. ventilated front discs with 2-piston calipers, 295mm rear drums

4x2 High-Ride and 4x4 models: 300mm dia. ventilated front discs with 2-piston calipers, 295mm rear drums

Power-assisted via 10.5" servo unit; central pull up park brake

Wheels and Tyres

4x2 SX (Low-Ride)

15" x 6.5" drilled silver-finish steel; 215 / 70 R15c Highway Terrain

4x4 SX and 4x2 SX (High-Ride)

16" x 7" drilled silver-finish steel; 245 / 70 R16 All Terrain

4x4 LS-M

16" x 7" alloy; 245 / 70 R16 All Terrain

4x4 LS-U and 4x2 LS-U (High-Ride)

17" x 7" alloy; 255 / 65 R17 Highway Terrain

4x4 LS-T and 4x2 LS-T (High-Ride)

18" x 7" alloy; 255 / 60 R18 Highway Terrain

LS-T models: full size alloy spare wheel

All other models: full size steel spare wheel

Service Plus

SERVICE+PLUS	6 YEAR WARRANTY*	6 YEARS ROADSIDE ASSIST ⁺	7 YEARS CAPPED PRICE SERVICE ⁺
---------------------	----------------------------	--	---

Warranty

For the ultimate peace of mind, every Isuzu D-MAX comes standard with a comprehensive, bumper-to-bumper 6 years/150,000km warranty⁺.

Roadside Assistance

Complimentary with every new D-MAX is 6 years roadside assistance⁺.

Capped Price Servicing

As an owner you will get access to our Capped Price Servicing⁺ Program. The CPS Program covers the first 7 Scheduled Services in line with the Scheduled Service Intervals.

⁺6 years/150,000km (whichever occurs first), for Eligible Vehicles with a Warranty Start Date on or after 1/1/19. Excludes trays & accessories. ⁺6 years Roadside Assistance (unlimited kilometres) for Eligible Vehicles with a Warranty Start Date on or after 1/1/19. ⁺The Capped Price Servicing Program ("CPS Program") applies to Eligible Vehicles at Participating Isuzu UTE Dealers only. For 19MY & later vehicle models, the Capped Price Servicing covers the first 7 Scheduled Services for up to 7 years/105,000km (whichever occurs first). CPS Program is subject to change. For full terms & conditions, current pricing & model eligibility visit isuzuute.com.au/service-plus-disclaimer.

^aFuel consumption and emissions figures based on ADR 81/02 and are to be used for vehicle comparison purposes only. Actual fuel consumption and emissions will vary depending on many factors including, but not limited to, traffic conditions, individual driving style and vehicle condition.
^bTare mass - unladen mass of vehicle and 10 litres of fuel; excludes tray body for cab chassis vehicles. ^aKerb weight - tare mass plus full tank of fuel. Fuel weight ratio is based on Fuel Standard (Automotive Diesel) Determination 2001. ^bPayload equals GVM minus kerb weight.
