

Toyota Hilux

Toyota Hilux. Ready for anything.

Hilux is trusted worldwide for its strength and durability. Built tough, designed to perform.

Since 1968, over 13 million Toyota Hilux have blazed trails around the world.

Single, Extra or Double Cab, or even deckless. Two engines, four grades. Hilux has got it covered.

Quality and durability define Hilux. The interior is designed for comfort and functionality.

The gripping, go-anywhere 4WD performance upholds Hilux's legendary off-road reputation.

Model shown: Hilux Double Cab SR+ in Dark Steel (1H2)
with optional side steps.

Unstoppable since 1968

The story began in 1968. Since then over 13 million Hilux have blazed trails worldwide, from Arctic tundra to the sands of the Sahara. Climbing, wading and traversing the toughest landscapes, the unbreakable Hilux is without equal.

Built to go further

Tested in extreme conditions and guided by Toyota's long-standing dedication to quality, the supreme off-road abilities of Hilux should come as no surprise.

Hilux's strength lies in a rock-solid ladder chassis and its Toyota Outstanding Performance (TOP) platform. Common to 4WD and 2WD models, this is rigid and incredibly strong. It's the foundation for Hilux's reliability and durability, enhanced by anti-corrosion panels and a rust-resistant body.

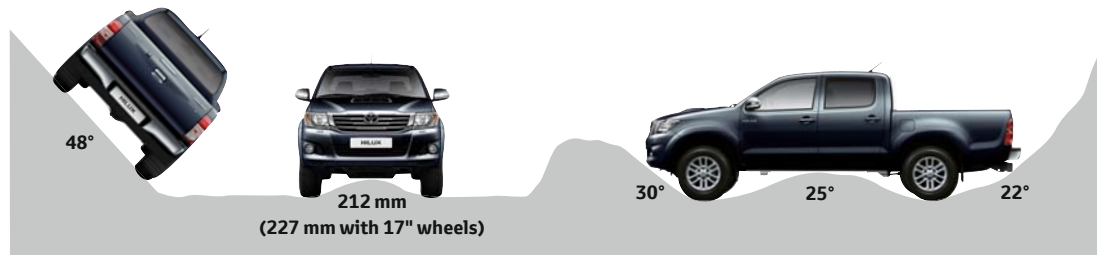

High clearance and a robust suspension make light work of riverbeds, dunes and streams. On slippery surfaces, a Limited Slip Differential (LSD) varies the torque output between the rear wheels.

When conditions change, Automatic Disconnecting Differential (ADD) enables easy, in-motion switching between 4WD and 2WD, with 2WD offering greater fuel efficiency and reduced noise.

See Hilux in action

Point your smartphone or webcam at the QR code and watch how Hilux tackles the toughest terrain.

TOP platform

The Toyota Outstanding Performance (TOP) platform uses fewer welding joints for greater strength and rigidity.

Double-wishbone front suspension

Absorbing bumps with ease, the robust double-wishbone front suspension delivers ride comfort and stability.

Rear leaf spring suspension

Traditional leaf springs give great articulation on tough terrain and allow for maximum loading capacity.

Model shown: Hilux Double Cab SR+ in Dark Steel (1H2) with optional side steps.

Comfort and convenience

The interior is defined by quality and durability. The sophisticated dark trim feels good; the layout is a blend of functionality and design.

Hilux is intelligent. A dusk sensor switches on lights automatically. Choose Toyota Touch*, the advanced touch screen with multimedia capabilities. Toyota Touch is linked to a rear camera for safer reversing. Satellite navigation is also available[§].

Toyota Touch*

Toyota Touch is a 6.1" colour touch screen interface that enables you to:

- See the image from a rear camera for safer reversing
- Access advanced satellite navigation[§]
- Control the radio/CD and portable music players, with full iPod integration
- Make hands-free calls via your mobile phone[°]

* Available as an option on SR and SR+ grades.

[§] Available on SR and SR+ grades as an accessory (page 24).

[°] Requires compatible Bluetooth®-enabled phone.

Model shown: Hilux Double Cab SR+ in leather.

A win-win choice of engines

Choose from two capable and efficient turbodiesel D-4D engines. The 2.5 litre version is available with 2WD or 4WD; the 3.0 litre alternative is matched with 4WD and a choice of 5-speed manual or automatic transmission.

Both deliver excellent low speed torque and high speed power, and are equipped with a Diesel Particulate Filter (DPF)* to minimise emissions.

** DLX+ grade.

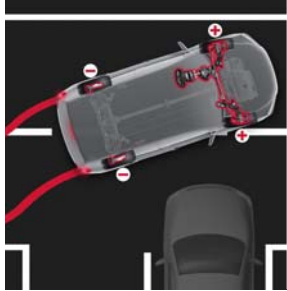

Model shown: Hilux Single Cab DLX in Pure White (040).

Totally committed to your safety

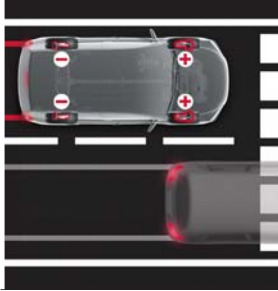

Active and passive safety features ensure that Hilux performs as strongly in this field as it does in every other. To keep you safe, systems include Anti-lock Braking System (ABS) with Electronic Brake force Distribution (EBD), Brake Assist (BA), Traction Control (TRC), Vehicle Stability Control (VSC) and Limited Slip Differential (LSD). And if an accident does occur, up to six SRS airbags* help to protect you and your passengers.

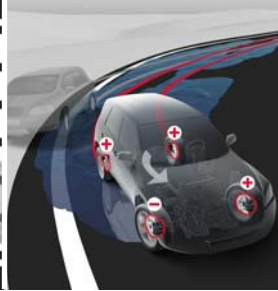

Anti-lock Braking System (ABS) with Electronic Brake force Distribution (EBD)
ABS prevents wheels from locking while braking, while EBD optimises brake force distribution. Together they help to maintain control.

Supplemental Restraint System (SRS) airbags
Fitted with up to six airbags*, including SRS airbags for driver and passenger, side airbags and curtain shield airbags for front and rear passengers.

Brake Assist (BA)
If you attempt an emergency stop, BA will detect this and instantly apply additional brake pressure. This enables ABS to work to its maximum potential and bring you to a stop more quickly.

Vehicle Stability Control (VSC)
VSC automatically activates each individual brake as needed and controls engine output to help maintain stability and prevent skidding when turning sharply or cornering on slippery road surfaces.

* 6 airbags only available on SR+. Driver & passenger front airbags on all grades.

Model shown: Hilux Double Cab SR+ in Dark Steel (1H2)
with optional side steps.

Selected details and features

Tie-down hooks

Secure your load easily with tie-down hooks, fitted to the load box exterior.

Grade availability:
DLX, DLX+ (Single Cab only)

USB/aux-in terminal

Enjoy your favourite music selection by connecting your iPod or other external audio devices to the USB/aux-in terminal.

Grade availability:
SR, SR+

Chrome heated door mirrors with turning signal

Turning signals are integrated into the chrome, electric and heated door mirrors for a streamlined appearance.

Grade availability:
SR, SR+

Automatic gear shift

Stitched leather with silver accent for comfort.
Available with the 3.0 litre D-4D engine.

Grade availability:
SR, SR+

Rear-view camera

When reversing, the audio display screen automatically switches to images captured by the camera in the tailgate.

Grade availability:
SR, SR+

Leather steering wheel

A leather-trimmed steering wheel with silver accents adds comfort and sophistication.

Grade availability:
SR, SR+

Choose the Hilux to suit your needs

Everyone's needs are different. That's why Hilux is available in many useful configurations: Single, Extra and Double Cab versions, with deckless variants on Single Cab only. Discover a choice of 2WD/4WD, engine sizes and transmissions; four grades of equipment ensure a perfect match.

Hilux line-up

To see the full line-up online, together with 360-degree images and full specifications, point your smartphone or webcam at the graphic above.

Single Cab

Extra Cab

Double Cab

Single Cab variants are available with or without rear deck.

* Available on DLX+ (5 M/T only), SR, SR+.

DLX

Main features

- 16" steel wheels
- Deck guard frame
- Black bumpers/mirrors/handles
- Tie-down hooks*
- Front and rear mudguards
- Heated door mirrors
- Slide-opening rear window (without defogger)

DLX is available in the above bodystyles.

DLX+

Main features (additional to DLX grade)

Electric pack (standard)

- Electric windows
- Wireless door locks
- Dealer-installed audio
- Heated and electric door mirrors

Options:

- 15" wide steel wheels[§]
- VSC with 17" steel wheels[§]
- 15" alloy wheels**

Styling pack (optional on Double Cab only)

- Colour-keyed front bumpers
- Colour-keyed overfenders
- 15" wide steel wheels
- Front fog lamps

DLX+ is available in the above bodystyles.

* Single Cab only.

[§] Double Cab 2.5 litre and Extra Cab only.

[§] Double Cab 4WD 3.0 litre only.

** Double Cab 4WD 2.5 litre and Extra Cab 4WD only.

SR

Main features (additional to DLX+ grade)

- 15" alloy wheels
- Fog lamps and headlamp cleaners
- Colour-keyed front bumper
- Privacy glass
- Dusk sensor^{5*}
- Chrome rear bumper and handles
- Chrome heated and electric door mirrors with integrated turning signal
- Colour-keyed overfenders

Options:

- Side steps

SR is available in the above bodystyles.

^{5*} Standard on 3.0 litre SR and SR+, optional on 2.5 litre SR and SR+.

SR+

Main features (additional to SR grade)

- 17" alloy wheels
- Dusk sensor^{5*}

Options:

- Side steps

SR+ is available in the above bodystyle and 4WD only.

DLX

Main features

- Semi low grey fabric
- Manual windows
- Manual door locking
- Rear differential lock
- 2 front airbags: driver and passenger
- Anti-lock Braking System (ABS)
- Rear seats with tip-up function*

Options:

- Limited Slip Differential (LSD)
- Manual air conditioning

Fleet Pack[§]

- Vinyl/PVC seats with 40/60 split bench

DLX+

Main features (additional to DLX grade)

- Front power windows
- Wireless door lock

Options:

- Limited Slip Differential (LSD)
- Manual air conditioning

Fleet Pack[§]

- Vinyl/PVC seats with 40/60 split bench

* Double Cab only.

§ Single Cab only.

° Standard on 3.0 litre Double Cab 4WD and optional from 2.5 litre 4WD.

** 3.0 litre only.

SR

Main features (additional to DLX+ grade)

- Full high grey fabric
- Front sport seats^o
- Leather steering wheel, gear shift knob and handbrake
- Multi-information display
- Optitron meters
- Audio controls on steering wheel
- USB/aux-in terminal
- Manual air conditioning
- Silver-coloured inserts
- Privacy glass
- Toyota Touch: 6.1" touch screen, rear-view camera display, 6-speaker radio/CD player with aux-in/USB and Bluetooth^o
- 6 airbags: 2 front (driver and passenger), 2 side and 2 curtain airbags

Options:

- Limited Slip Differential (LSD)
- Leather seats with seat heaters

SR+

Main features (additional to SR grade)

- Front sport seats
- Cruise control**
- Automatic air conditioning
- Vehicle Stability Control (VSC)
- Brake Assist (BA)
- Electronic Brake force Distribution (EBD)

Options:

- Leather seats with seat heaters

Accessories

Choice, purpose and personality. Wherever life takes you and your Hilux, genuine Toyota accessories add those extra touches of individuality that make every journey even more special.

1. Front underguard

Stylish silver finish guard to protect the underbody against stone chips.

2. Fog lamp surround

Complements your car's fog lamps and bumper with a stylish chrome detail.

3. Hard top with windows

Stylish design featuring rear and side windows.

4. Front grille

Uniquely designed for that look of power and performance.

5. Rear light bezel

Introduces a stylish chrome surround to the rear light cluster.

6. Aluminium bed liner – wheel arches

Added wheel arch protection for use with the aluminium bed liner.

7. Bed extender

Clips onto deck hooks and around the dropped tailgate to secure long loads.

8. Roll n' lock tonneau cover

The lockable slatted aluminium design can be rolled back for quick access.

9. Hard tonneau cover

Tough practicality with a lockable hinged lid. Can be painted to match your car.

10. Aluminium tonneau cover

Secures cargo in the bed and can take another load on top. Natural aluminium finish.

Contact your local Toyota retailer for details of the full accessory range.

Accessory packs

Toyota Hilux accessory packs are designed for individuality, convenience and value. They create options for added style, extra practicality and, with the Invincible pack, a special combination of both.

Reassuringly, each pack is co-ordinated for seamless integration. Every accessory is made with the same attention to detail as your Hilux itself.

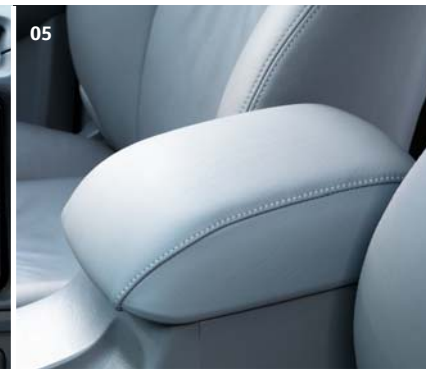

- 1. Front guard
- 2. Towing hitch

- 3. TNS350
- 4. Scuff plates

- 5. Padded armrest
- 6. Leather handbrake

- 7. Gear shift bezel
- 8. Instrument bezel

The fuel consumption and CO₂ values are measured in a controlled environment, in accordance with the requirements of Directive 80/1268/EEC incl. its amendments, on a basic production vehicle. For further information, or if you are interested in buying a basic production vehicle, please contact your local retailer. The fuel consumption and CO₂ values of your vehicle may vary from those measured. Driving behaviour as well as other factors (such as road conditions, traffic, vehicle conditions, installed equipment, load, number of passengers, ...) play a role in determining a vehicle's fuel consumption and CO₂ emissions.

Glossary

Learn more about the advanced engineering, sophisticated safety systems and hi-tech equipment that make Hilux a natural leader.

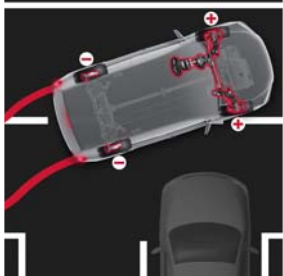

Supplemental Restraint System (SRS) airbags

The Hilux is fitted with six airbags. They include SRS airbags for both driver and passenger, side airbags and curtain shield airbags covering both the front and rear seat passengers.

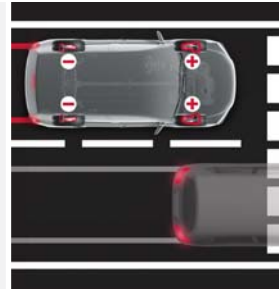

Vehicle Stability Control (VSC)

VSC automatically activates each individual brake as needed and controls engine output to help maintain stability and prevent skidding when turning sharply or cornering on slippery road surfaces.

Anti-lock Braking System (ABS) with Electronic Brake force Distribution (EBD)

ABS prevents the wheels from locking while braking. EBD complements this by optimising brake force distribution between each wheel to compensate for different loads. Together the two systems help you to maintain steering control when braking heavily.

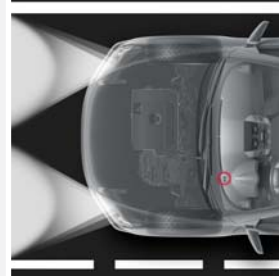

Brake Assist (BA)

If you attempt an emergency stop, BA will detect this and apply additional brake pressure. This enables ABS to work to its maximum potential.

Front and rear suspension

For Toyota's heavy-duty vehicles, suspension is designed with strength and endurance in mind. From leaf springs and semi-trailing arm systems to double-wishbone front suspension, every combination delivers optimum performance and ride comfort.

Dusk sensor

The dusk sensor monitors light levels and automatically switches on the headlights when the light is low.

Traction Control (TRC)

If you accelerate too hard and cause the drive wheels to lose grip and begin spinning, TRC will automatically reduce engine power and control brake force to help restore traction.

Manual transmission

Toyota's manual transmissions are designed for precise, smooth gear changes. Efficiency can easily be maximised yet power is always at hand for overtaking. The result is an engaging and dynamic driving experience.

2.5 l D-4D

Matched with 2WD or 4WD, the 2.5 litre D-4D engine provides optimum power and torque. Lower engine friction maximises fuel efficiency and reduces emissions, while noise and vibration have been minimised for greater comfort.

Automatic transmission

Toyota's automatic transmissions offer a smooth, effortless drive with minimal driver effort. Gear changes are quick and responsive, and additional manual modes enable greater control if required. Automatic transmissions are engineered for the best balance of performance and economy.

3.0 l D-4D

The 3.0 litre D-4D diesel engine offers power when you need it. This is balanced with efficiency and clean diesel technology, with fuel injected at high pressure for superior performance and a smoother driving experience.

Toyota Touch

Toyota Touch* is a 6.1" colour touch screen with multimedia capabilities that displays vehicle information, and is also linked to a rear-view camera for safer reversing.

* Some functions may be available on selected models only.

Owning a Hilux means you enjoy the peace of mind afforded by Toyota's global reputation for quality and integrity.

Designed to minimise maintenance

Intelligent engineering

The Hilux is designed and engineered to minimise maintenance. There are fewer parts that require servicing and those that do are more durable to extend service intervals. Hilux technology is made easily accessible so that labour time is minimised. Competitively priced Toyota spares ensure the lowest cost for maintaining your Hilux.

Full Health & Safety check

Toyota quality service

Your Toyota retailer is here to help and guide you in all your service requirements.

Your Hilux will need a full Health and Safety check, dependent on driving style and conditions, up to once every two years or 30,000 km (whichever comes sooner). An intermediate Health and Safety check is necessary every year or 15,000 km (whichever comes sooner).

3 years Vehicle warranty

Comprehensive warranty

3-year vehicle warranty covers any defect caused by a manufacturing or assembly fault. It is valid for 3 years of normal use or 100,000 km, whichever comes first, with no mileage limitation for the first year.

If the car is immobilised due to a breakdown (as a result of a defect covered under warranty), you will also be covered for the cost of towing your vehicle to the nearest authorised Toyota repairer.

3-year paint warranty covers surface rust and paint defects appearing on any of the painted body panels as a result of a fault in materials for a period of 3 years, regardless of mileage.

12-year anti-perforation warranty covers against perforation of the bodywork (from inside to outside) that develops due to corrosion caused by faults in materials or workmanship, regardless of mileage.

**Low parts
& labour
charges**

Toyota genuine parts

Hilux is designed to minimise the cost of accident repair. Energy-absorbing elements are built into the bumpers, expensive-to-replace parts are located away from damage zones, and commonly damaged body parts are bolted rather than welded. As a result, the extent of damage is limited and damaged parts are easy to remove, replace or repair. Ultimately, this means very low parts and labour charges.

3 years*
**Roadside
assistance**

Toyota Eurocare

In order to help you enjoy peace of mind driving, we are pleased to provide 3 years* Toyota Eurocare roadside assistance coverage in no fewer than 40 European countries. If you experience a problem with your Hilux, Toyota Eurocare offers several possibilities to keep you on the road.

Added security

The Hilux security system withstands the insurance industry's rigorous 5-minute attack test and provides excellent protection. Both the alarm system and engine immobiliser are approved by Europe's major insurance companies.

3 years[§]
**Accessory
warranty**

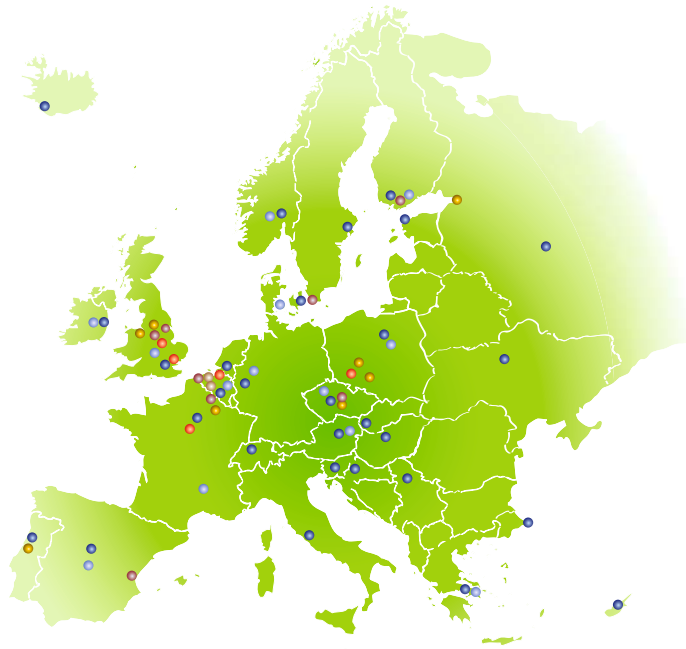

Toyota accessories

Toyota accessories are designed and manufactured with the same care, quality and attention to detail as Toyota vehicles. Tailor-made for your Toyota, they fit perfectly and add a personal touch of style, comfort and practicality. And because they've been tested under the most severe conditions, you can have complete confidence in their reliability and durability. To add to the reassurance, every genuine Toyota accessory has a 3-year warranty when purchased together with the vehicle[§].

* Belgium 5 years, Portugal and Denmark 1 year.

[§] Check with your retailer for specific warranty details.

Toyota takes great pride in constantly improving environmental performance.

- National sales centres
- Logistics centres – vehicles
- Logistics centres – accessories/spares
- Production sites
- Supporting companies
- Training centres

As a worldwide corporation we aim to be wherever our customers need us, and therefore we have a strong presence in Europe. This shortens delivery distances and results in substantial time savings that are good for you and the environment.

**Less CO₂ used
to build a Hilux
since 2002**

Designing your car

Each design detail on our vehicles is analysed to ensure the lowest possible environmental impact throughout its life cycle. This meticulous approach has led to an array of innovative features on our cars that contribute to environmental efficiency.

Making your car

At Toyota, every effort is made to ensure environmental efficiency throughout the manufacturing process.

Getting vehicles and parts to you

Toyota is always looking to employ the most efficient and environmentally friendly logistical and delivery methods.

Selling and servicing your car

We have developed a sustainable retailer programme to reduce energy, water and waste emissions generated across our network. This covers everything from rainwater recycling, introducing additional roof insulation and using renewable energy at new retailers, as well as carrying out energy audits to identify efficiency improvements at existing retailers.

95% of your Hilux is recoverable

The end of the road for your vehicle?

Toyota always designs and manufactures its vehicles with an eye on the three Rs: reduce, reuse and recycle. For example, 95% of every Hilux is reusable and recoverable, 100% of materials are coded and four heavy metals have been eliminated completely in accordance with 2000/53/EC. In addition, our environmental policy means that we offer Toyota drivers new and innovative ways of returning their old car. For more information visit: www.toyota.eu or contact your local Toyota retailer.

20-30% less fuel and CO₂

Drive thoughtfully

Drive your car in the right way and you could reduce your fuel bill and your CO₂ emissions by around 20–30%.

01. Remove any extra weight and roof load.
02. Plan your route and avoid detours.
03. Avoid using your car for short journeys.
04. Check your tyre pressure regularly.
05. Service your car according to the owner's manual.
06. Shift up gear earlier.
07. Only use air conditioning when necessary.
08. Follow and anticipate traffic flow.
09. Keep your windows closed.
10. Switch off your engine if you have to wait longer than 60 seconds.

A wide-angle landscape photograph showing a dirt road that curves through a field of tall, golden-brown grass. In the background, there is a dense line of green trees and shrubs, followed by a range of rugged, grey mountains under a sky filled with soft, white clouds. The overall mood is serene and natural.

For Toyota, quality is a way of life.
Nothing is so good it cannot be made better.

Model shown: Hilux Double Cab SR+ in Dark Steel (1H2)
with optional side steps.
